📍 Philadelphia, Pennsylvania

SUMMARY

With over 10 years of experience in Oracle development, I am skilled in PL/SQL, Forms, Reports and APEX, with a robust track record in system integrations and optimizations. My greatest achievement includes leading a successful Oracle Forms upgrade that enhanced system performance.

EXPERIENCE

Oracle Applications Lead Developer

Tech Innovations Inc.

📅 03/2020 - Present　　📍 Philadelphia, PA

- Spearheaded a team of 5 developers to redesign the financial module using Oracle ADF, improving transaction processing speed by 30%.
- Developed a customized E-business suite for global operations, which integrated with third-party APIs, increasing data accuracy by 25%.
- Optimized existing PL/SQL codebase for core business applications, shortening batch processing times by 40%.
- Implemented Oracle Forms personalizations and reports, which automated monthly financial reconciliations, reducing manual intervention by 50 hours per month.
- Initiated and led the successful migration from Oracle Forms 10g to 12c, resulting in enhanced system performance and scalability.
- Collaborated with the Business Analysis team to translate complex requirements into functional specs, streamlining the development process and cutting delivery times by 15%.

Senior Oracle Developer

Global Tech Solutions

📅 08/2015 - 02/2020　　📍 Philadelphia, PA

- Built and maintained Oracle interfaces for international payment systems, handling over $5 billion in transactions annually.
- Designed an automated Oracle Workflow to streamline inventory management for a leading retail client, enhancing system efficiency by 20%.
- Authored extensive PL/SQL packages for data-intensive analytical applications, leading to a reduction in report generation time by 35%.
- Conducted rigorous code reviews to maintain high-quality development practices, catching and rectifying 90% of potential defects pre-release.
- Orchestrated a critical database upgrade for enterprise clients, ensuring seamless transition with zero downtime.

Oracle Developer Specialist

DataWise Solutions

📅 11/2010 - 07/2015　　📍 Philadelphia, PA

- Developed a comprehensive BI Publisher reporting system that increased report accessibility for management by 40%.
- Implemented modular PL/SQL procedures to support robust sales forecasting models for e-commerce platforms.
- Conducted performance tuning of SQL queries in critical applications, reducing average response time by 25%.
- Collaborated on a multi-departmental project to create a seamless data integration framework, enhancing cross-functional reporting capabilities.

EDUCATION

MS in Computer Science

University of Pennsylvania

📅 01/2008 - 01/2010　　📍 Philadelphia, PA

BS in Information Technology

Drexel University

📅 01/2004 - 01/2008　　📍 Philadelphia, PA

PROJECTS

Open Source Oracle Reporting Tool

Contributed to an open-source Oracle reporting tool designed to simplify financial data visualization for small businesses. See code at github.com/LucasRodriguez/OracleReportingTool

Custom PL/SQL Authentication Library

Developed a PL/SQL library for advanced authentication mechanisms geared towards Oracle-based applications. More details at github.com/LucasRodriguez/PLSQLAuthLib

ACHIEVEMENTS

💬 Speaker at OracleDev Conference
Presented a well-received talk on 'Innovations in Oracle APEX Development' at the annual OracleDev Conference.

💙 Team Lead of Award-Winning Project
Led the project team that won the 'Best Technological Improvement' award for a successful Oracle Forms upgrade.

💬 Published PL/SQL Best Practices Article
Authored an article on PL/SQL best practices which was featured in the Tech Innovator Magazine and praised by industry peers.

🚩 Successful High-Volume Data Migration
Executed a complex data migration for a financial institution involving over 10 TB of sensitive data with zero data loss.

SKILLS

PL/SQL	Oracle Forms/Reports
Oracle Workflow	BI Publisher
Oracle APEX	OA Framework
